

## **Zoom for Healthcare Now Available for Practicing Members**

In light of the current COVID-19 outbreak and the adjustments being made to online and remote delivery of psychological services, CPNB wishes to advise members that the Government of New Brunswick is making available *Zoom for Healthcare* to all Practicing Members of CPNB. This is a measure being put in place to help CPNB Practicing Members provide services to their clients during the COVID-19 pandemic and will be available for one year from the Government of New Brunswick at no cost to members.

Zoom is a web-based virtual video conferencing platform and *Zoom for Healthcare* provides additional security measures to protect the privacy of personal health information being shared over internet channels.

Please note that **all Practicing Members of CPNB (psychologists and residents) are eligible** to receive *Zoom for Healthcare*. This includes public sector psychologists (including those who work for Horizon Health Network, Vitalité Health Network, Corrections Canada, among others), as well as those in private practice and non-profit sectors.

**Enrolling in *Zoom for Healthcare* is voluntary;** Members are not required to take part in this government initiative.

**If you are interested in obtaining a *Zoom for Healthcare* license, please email [ConnectedCare@gnb.ca](mailto:ConnectedCare@gnb.ca) with "Zoom" in the subject line. Please provide your name, phone number, preferred language of communication, role, employer, and whether or not you work in private practice.**
